

This roadmap is a recommended semester-by-semester plan of study for this program. The plan shown assumes full-time enrollment. Courses and milestones designated as critical (in boldface and shaded areas) must be completed in the semester listed to ensure a timely graduation. The semester a course is offered is subject to change. Any deviation from this plan will likely result in extending the length to degree completion. Self-registration requires electronic approval from your faculty advisor to assure compliance to this plan. Failure to do so places completion of your degree in jeopardy.

Program Notes

Minimum Total Degree Credits: 42

Accelerated Students: 4th year accelerated students may not take more than 12 graduate credit hours per semester in their first year of their program.

***Satisfactory completion of the MPH Professional Development Series required before registration in HMP 5910 Internship.**

PUBH-5910: This will replace the HMP Internship/Practice Experience Mentor approval required.

HMP 5390: This will replace the MPH Core PUBH 5020 requirement.

XXX-#### Elective: Academic advisor approval required. Elective should be selected in consultation with your academic advisor from the list of approved electives (which includes concentration specific classes as well as other approved courses) or non-approved courses with express approval from the academic advisor. Students that are pursuing a Certificate on top of their MPH should, in consultation with their academic advisor, draw their elective choices from the list of courses required for the Certificate.

PUBH-5950: Registration in this class indicates student has completed coursework required to sit for the CPH exam in the spring semester.

PLEASE NOTE: This roadmap is an example of what a plan could look like for a typical student. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
