

Worksheet for M.A. students wanting to transition into Ph.D. Program

This particular worksheet is for those Master's students that are doing research and want to transition into the Ph.D. This course of study requires a total of 24 hours prior to transitioning to the Ph.D. program. See the departmental website for more description on the required courses. The core curriculum involves 12 hours consisting of two courses from each of two primary focus areas of advanced chemistry. The remaining hours can come from other graduate chemistry courses or from advanced courses in other disciplines.

CHEM 5000. All incoming full-time graduate students enroll in our orientation course their starting summer. Those who start in the Spring will take this course during their first summer.
